Subject: Gobel Avenue – Westwood Northern Boulevard to Bracken Woods Lane

This project is a street improvement project on Gobel Avenue between Westwood Northern Boulevard and Bracken Woods Lane in Westwood. This project consists of reconstructing the pavement with full-depth asphalt concrete, installing 6-inch high concrete curbs, 5-foot wide concrete sidewalks, a new storm sewer line, and a new water main. The finished roadway will consist of two 13-foot through lanes with parking on one side of the street. The project is intended to improve pavement condition and to improve stormwater drainage on Gobel Avenue.

Funding will be from the following sources:

2001 Community Street Improvement Fund
Ohio Public Works Commission (OPWC)
Cincinnati Water Works
Stormwater Management Utility

Construction on this improvement began on January 2, 2002 and is expected to be completed by December 31, 2002.

APPROVED:

Timothy H. Riordan
Acting City Manager
